brother rice high school

chicago, illinois .

Opportunity is wasted unless it is used properly. This year an inspired class has utilized all opportunity, keeping a distinctive individualism while striving towards common goals.

Herein we find our students

Our school is measured by what the students have produced, guided in their endeavors by the faculty--dedicated men who have given us the opportunity to raise our talents to the zenith of their potential.

Herein we find our faculty

Our common goals have been met by an instinctive spirit, one of co-operation-unifying us in mind and purpose whenever there is a challenge confronting us.

Herein we find our tradition

A grid of 32 black and white portraits of young men, likely from a mid-20th-century yearbook. The portraits are arranged in 8 rows and 4 columns. Each man is wearing a dark suit jacket, a white shirt, and a dark tie. The portraits vary in quality, with some being sharper and more detailed than others. The men have various hairstyles and some are wearing glasses. The background of each portrait is a light, neutral color.

Three mugshots of men in suits. The man on the left has dark, curly hair. The man in the middle has dark, wavy hair. The man on the right has short, dark hair. All three are wearing dark suits, white shirts, and dark ties.

Three black and white mugshot photographs of men in military uniforms. The man on the left is looking slightly to his right. The man in the center is looking directly at the camera. The man on the right is looking slightly to his left. All three are wearing dark jackets with light-colored collars and ties.

A grid of 14 black and white portraits of men in suits, arranged in two rows of seven. The men are of various ages and are all wearing dark suits with white shirts and dark ties. The portraits are set against a light background. The first row shows seven men, and the second row shows seven more men. The portraits are arranged in a 2x7 grid.

Abstract: The purpose of this study was to determine the effect of a 12-week training program on the physical fitness of 10-year-old children. The study was conducted in a primary school in the city of Ankara, Turkey. The children were divided into two groups: a control group and an experimental group. The experimental group participated in a 12-week training program that included aerobic, strength, and flexibility exercises. The control group did not participate in any training program. Physical fitness was measured at the beginning and end of the 12-week period using a series of tests: 1000m run, 50m sprint, 10m sprint, sit and reach, and push-up. The results showed that the experimental group had significantly higher scores than the control group in all five tests at the end of the 12-week period. The findings suggest that a 12-week training program can improve the physical fitness of 10-year-old children.

Michael Perlongo

He was my friend. He was
the brother I never had.
I always felt his brother
should be lucky enough to
know someone like him. He
wasn't perfect, but he was
human. His family values
were exemplary. He had the
ability to enter a room
crowded with strangers and
be a very short time in his
element.

Things have been said and
when he died, he died. But
the joy of knowing his life
sustained me.

Mike Perlongo was my
friend and now he's gone.

The 1964 Crusader season produced a much more successful team than was expected. This was due to the fine coaching of Mr. William Flynn, who, in his second year of coaching at Brother Rice, has come up with the hardest hitting team in the Catholic League, and to the team members, who, through their desire to win, gave Brother Rice Football its best season yet - 6 wins and 3 losses.

The Crusaders six victories were achieved by beating some of the finest teams in Chicago. Rated first and second in South Section, powerful Mt. Carmel and Leo fell to the Crusaders. From the North Section, highly regarded Gordon Tech and Fenwick were disposed of 22 - 14 and 20 - 0.

Congratulations to the team and the coaches. With a talented and experienced team returning next year, Brother Rice will be a strong contender for the City Championship.

(*low score wins)

The varsity cross country team successfully defended their Catholic League Crown this season by nipping second place Loyola by a score of 30-32.

The season was highlighted by the harriers posting a dual meet record of 15 wins and 1 loss. In the South Section Meet the Crusaders stole the limelight by scoring a low of 26 points compared to second place Leo having 58 points.

In the past two seasons the varsity has won both the South Section and Catholic City Championship. Their dual meet record was an astounding 26 wins and 3 losses.

Crusaders try to clear their zone

Under the leadership of Brother Austin, the hockey team propelled itself to its first Catholic League Championship. The first forward line, composed of Jeff Ulanski, Charley Marx, and Tom Gallagher pumped in a total of 20 goals. Additional scoring support was added by the second forward line of Paul Bitter, Pat Cody, and Bill Laase. The sum total of their efforts was 18 goals. Defensemen Jack Perdue, Brian

Quirk, Dennis Figler, and Captain Dan Purcell supplied excellent and consistent play, holding opposing teams to 11 goals. Sophomore goalie, Dan Nimtz held the opposition to a total average of 1.1 goals. The entire team regards their 2 to 1 victory over Fenwick, last year's champs, as the highlight of the year.

The 1964-65 season was one of pleasant surprise for the Heavies and their followers. Not considered as a contender for the championship, the Heavies started the season looking like an also-ran. But the team began to play as a team, and they captured third place in the DePaul Christmas tournament. From here on, the Crusaders looked like the team to beat. They won their first 3 league games, and were tied for first place for most of the season. The Heavies then went on to post a league record of 9 won and 3 lost. The team was led by seniors Den Sendlak, Kirk Norris, Tom Tracy, Rich Rutkowski, John Herich, and junior Mike Mossuto. Congratulations to the team and Mr. Kellogg.

Ladd ups the ball to Michalak

The 1965 Lightweights were spearheaded by seniors, Rich Collins, Joe Sullivan, Ned Haskins, Steve Ladd, Mike Nolan, Denny St. Germaine, Tom Roebuck, and Bob Michalak. The team showed good balanced scoring, with Collins and Nolan leading the attack.

Although the season record of does not seem terrific, one need only look to see that the point spread in any of the Crusader losses was never very large. Many of the Crusader losses came when the team had lost two or three of its starting five, through foul trouble.

Much credit must be given to Mr. Kellogg, who whipped the team into shape, and instilled into them the drive that marks the difference between a winner and a loser.

The sport section of any yearbook would be incomplete if there wasn't a section about the intramural sports. Here at Brother Rice we are lucky to have one of the best intramural systems of any school. Intramural sports are: basketball, handball, hockey, tennis, softball, and bowling. Besides helping to round out the schedule of a Riceman, intramurals have proved to be of great help to the Varsity coaches, who can spot performers who could aid their teams

The 1964-65 season saw Mr. Kral and Br. McNamara turn out the best swim team that Br. Rice has ever produced. The Junior team captured fourth place in the Lovola Relays, then came back to take third place in the City Championships. The Senior Team captured third place in the College Event's Day, Friar Relays, and City Championship meets.

The culmination of the season was the City Championship, which found the seniors qualifying ten individuals and two relay teams. Greg Gapsis and Joe Ladouceur both posted times of 57.6 seconds in the 100 yd. butterfly to set a school record. At the same time, Captain Paul Meyer was setting a school record of 1:49.2 in the 200 yd. freestyle. This time qualified him as the first Br. Rice swimmer to make the All-American High School team.

water polo

Repeating as City Champions this year, the Brother Rice Water Polo Team continued its winning ways with its second championship in as many years.

Under the coaching of James Mulcrone, the team came from behind in the second annual Br. Rice tournament, beating Fenwick in two overtime play off games, to take the title.

The quality of the team is exemplified by the fact that in the past three years three seniors have been chosen members of the "Inter-Scholastic All-American Water Polo Team". Paul Akers in '63, Bill Meyer in '64, and Greg Gapsis this year, each considered one of the thirty best high school players in the nation.

Even though the team is losing five of its senior players, with returning players Joe Ladouceur, Neil McMahon, George Seizick, and Mike Barry it should remain one of the major powers in the city.

The 1965 Track Team was an able successor to the previous Rice teams that have copped many a South Section and City Championships. One team as expected was a major contender for the South Section and City Crowns. Especially noted this year was the improved performance by the team in field events and distance races. Mr. Bergmann fielded a team, which appeared to be the best balanced and strongest in depth that Br. Rice has ever had.

band

The Brother Rice High School Band is one of the most demanding activities in the school. The band presents performances at many different times of the school year. Under the able direction of Mr. Leo Henning, the band prepared half-time shows for the football season. The band presented Christmas and Spring concerts. This year, the band was honored by being asked by Mayor Daley to perform at the reception to welcome President Johnson to Chicago. The school can be justly proud of its band and the recognition accorded it.

senior glee club

Once again this year, the Senior Glee Club has remarkable skill in the performance of its concerts. The excellent spirit of the group is reflected by the enthusiasm with which their songs are presented. Moderated by Brother Galway, the club consists of approximately eighty members, many of whom are upperclassmen. The members of the club are devoted to cultural activities in the school as well as athletics. Other than participating in the Christmas Concert at Brother Rice and performing for the student body at the Christmas assembly, the Glee Club represented our school at the Museum of Science and Industry during their famous "Christmas Around the World" exhibition. Under the able direction of Mr. Garrels, the sections presented their annual Spring Concert which was held in May.

french club

The Brother Rice French Club has long been a means by which the language and culture of France has been spread among the students. Every year, under the capable and exacting moderatorship of Brother Wolf, the members of the club entertain new adventures. In addition, there are standard annual activities to occupy the members of the Cercle Français. These include the publication of the French newspaper, "La Tonnerre" and the traditional pilgrimage to a gigantic soiree prepared by the students of Bishop Knoll High School, Indiana. This year's activities were highlighted by an interschool meeting of French Clubs at the Sacred Heart of Mary Academy.

As usual, the club members assembled this year for their German-style banquet at a local restaurant. This club has become a lasting contribution to the activities offered at Brother Rice.

Mr. Baader holds an informal lecture period on the German language for some of the senior club members.

The Sodality of Our Lady is dedicated to the Blessed Virgin and its aim is to bring her to its members and all the members of the Sodality closer to Christ through His mother. The Sodality is moderated by Brother Moore and is divided into senior and junior groups. Its main activity is running an annual Christmas Dinner and Turkey Drive for the needy, and it also sponsors weekly Benediction. The members meet every week and attend a Day of Recollection once a year, during which they become enrolled in the worldwide Sodality of Our Lady. The Sodality is one of the most important and beneficial organizations in the school.

young christian students

Emphasizing the necessity for advancement in the field of Catholic Action, the Young Christian Students, under the guidance of Brothers Crane and Kelly, was introduced into Brother Rice. As a new innovation in our school, the group's purposes are many and varied, but primarily it aims at preparing members for leadership in the lay apostolate.

By close contact with their friends and classmates members acquaint themselves with the problems faced by young adults. These mutual difficulties are then discussed at the weekly meetings where practical solutions are sought by eliminating or lessening the cause of the problem. This positive action, which results from each meeting is the heart of Catholic Action. It is attained by the application of Christian principles to modern social problems.

Stemming from this technique of observing, judging, and acting, Y.C.S.'ers have sponsored several school projects in the field of Catholic Action. Civil Rights speakers were invited to speak to the students on the racial problem; visits to the Little Brothers of the Poor were organized, and food and clothing were given to the poor, bought with money obtained by Christmas Caroling. The hi-lite of the year, however, was the visitation to Oak Forest Hospital. Encouraged by club members, many students offered their day to bring gifts and happiness to elderly patients.

library club

The Library Club, moderated by Brother F. G. Paine, regards as one of the most important units in the school. The care and running of the library is entrusted to its members. For this reason club members are thoroughly trained in library procedure and are ready to help any student needing assistance.

Besides daily work at the library, meetings are held on the first Friday of the month. The club also seeks the spiritual development of its members. Club members attend monthly Mass and Communion frequently.

The Club attends two CASH (Catholic Association of Student Librarians of Hartford) meetings a year and is frequently invited at other schools for discussions or socials.

art club

The Art Club, under the guidance of Br. Chapman, has been engaged in many projects during the past year. Sculpture was the first art experience tackled by the club. Using gauze saturated with plaster of paris, the artists built their sculptural forms over a prepared wire fixture. The results ranged from abstract forms to racing horses.

The next project undertaken was water color. The many difficulties of this technique had to be overcome, however, before any results could be seen. A new vinyl-base water paint was then used, and the water color difficulties were eliminated in exploring this new medium. Many beautiful works of art were produced.

One more venture into the third dimension was attempted with string construction. This was not only fascinating but also provided the club with many enjoyable hours.

Ray Tocik, Richard Thavis, and Tim Wright experiment with a new vinyl-base paint.

Members of the Art Club spend many pleasurable hours in producing new effects with water colors.

chess club

On week-day evenings, a small group of chess players gathered in the back of the physics lab to compete for standing on the Brother Rice Chess Team. This was used for matching players in inter-scholastic tournaments. The club is affiliated with the Chicago Catholic Chess conference. The Pep Club, moderated by Brother Barry, is an organization consisting primarily of seniors, which tries to bring out the enthusiasm of the student body. Several juniors are included, however, because of their school spirit. When the Crusaders are faced with an important game, the members of this club give their time and effort to plan and decorate for pep rallies. The signs which appear throughout the building before football and basketball games are products of the imagination and hard work of this organization. Cheerleaders try to bring out the school spirit of the crowds, and spur the team on to victory. Because ten or twelve cheerleaders cannot bear the burden alone, this club deserves the support of the entire student body in the form of greater participation at games.

dads' club

The Brother Rice Dads' Club aims to help the fathers of Brother Rice students help the school. Their main project, a swimming pool for the school, has been speeded up this year by joining with the Mothers' Club in the raffle drive. The dads also have provided the ushers at many social and athletic functions at Brother Rice. The moderator, Brother W. D. Neary, and the officers of the club have led the membership in these many worthy goals. The student body gives them many thanks for their wonderful interest and the work they have done for the school.

Here at Brother Rice, the students are fortunate indeed to have this group of mothers who are so interested in the welfare of their sons and of the school. The Mothers' Club has sponsored, this year, various programs designed to raise money for the school to be used in further equipping the Audio-Visual Department. This year, too, the club has aided the fund raising drive for the pool by offering their annual Card Party and Fashion Show. This has been intended to quicken the pace of the drive. The club also looks to the spiritual welfare of the school by encouraging participation in the Family Communion Sundays during the year. The students join with the faculty in thanking the Mothers' Club for its splendid assistance.

biology club

The Darwin Biological Society, moderated by Brother Murphy, has the main purpose of promoting biological careers and expanding the members' knowledge of science. The facilities of the biology laboratory and Brother Murphy's advice and ideas are always available to assist the members. Many individual members' projects received high awards in this year's Science Fair. The task of caring for living specimens in the lab further adds to the members' appreciation of biology and to their knowledge. These organisms are used in the course of experimentation carried out by the club. The club has been a worthwhile experience for all concerned.

This year's Chemistry Club has been one of the most active in the school's history. The club was moderated by Brother Doherty for the first semester, then by Brother Quinn for the remainder of the year. A long list of experiments and activities is being completed by the club to provide its members with experience in certain aspects of chemistry not taught in a regular high school course. The club toured the Argonne National Laboratories and the Abbott Laboratories this year, and it repeated a previous experiment to determine the percentage of tars and nicotine in common brands of cigars and cigarettes. Lectures and many more interesting experiments have made this club enjoyable and rewarding for all its members.

physics club

One of the most beneficial and interesting of the activities at Brother Rice is the Physics Club. Under the guidance of Brother Crane, the club is in its sixth year of success. The club meetings are held weekly in the physics lab where the members enjoy the excellent science facilities. The students, while seeking an introduction and valuable experience in college-level laboratory work, find the experiments interesting and often amusing. The meetings consist of an introductory explanation of the laboratory procedure, and the actual experiment. The experimental results are discussed at a following meeting. Each experiment is designed by Br. Crane to develop laboratory skills necessary to college-minded students. The work usually corresponds to the subject matter studied in the physics course at that time. The purpose of the club is to allow the students to perform experiments and investigate physical phenomena on an advanced level. Encouraging the students to seek their own conclusions develops the elements of curiosity and thought, both of which are necessary to the future scientist.

Members of the Engineering Club work to perfect the engine to be used in their Ground Effects Machine.

advanced physics club

The Advanced Physics Club includes eight members devoted to scientific research. The members are divided into two separate projects, both in the field of low vacuum physics. The oldest group has been endeavoring to obtain a phenomenon known as electron diffraction. Three years ago, a second group was formed to build an electron microscope.

Because of the amount and caliber of work required, each member spends about five hours weekly on his project. Members usually join as freshmen or sophomores so that by the time they are seniors, they will be expert in their field to guide the rest of the club along.

Besides theoretical knowledge, many technical skills must be learned to carry out the expanding aspects of the projects. Skills such as glass-blowing, film developing, and simple machining are very useful.

Brother Crane, the club's moderator, provides an atmosphere of college level research. He also gives assistance to the group when members are stumped by some new problem.

engineering club

The Brother Rice Engineering Club provides an excellent training ground for future engineers. Through the club's project, members learn of the problems and difficulties of the Engineering profession as they tackle all the jobs of a professional engineer.

At the present, a Ground Effects Machine is being designed and built. Since final specifications on body design cannot be made until the engine to be used is perfected, most of the club's present activity is centered around this engine. With this work to be completed in the not too distant future, progress should speed up and within a short time Rice's Engineers hope to be merrily gliding around the campus on a cushion of air.

An interesting feature of the engineering club is that most of the work is done on the basis of what its members already know. Over its two year history at Rice, the practice has been to assign duties to the men who have had some special knowledge or interest in that field. In that way the members learn from each other as they work to complete the project.

Under the leadership of Brother Mahoney and Editor Joe McDonough, the STANDARD, this year, has combined the traditions of the past STANDARDS with new ideas and concepts. It has come to serve as the voice of the student.

The covers were planned to provide a varied look at the faces of Brother Rice. Features were presented in a way so as to include several aspects of student life. Clubs continued to be emphasized in an attempt to acquaint students with their functions and accomplishments. The editorials were meant to be thought provoking and to serve to echo the ideas the STANDARD wishes to convey. Three more columns were added to the paper this year and athletics, particularly major sports, were given as much space as possible.

The enthusiasm and continued support for the paper served as a source of satisfaction for the entire staff.

Brother Shannon, Guidance Director and Student Council Moderator, has breathed a new atmosphere of purpose into the Student Council organization. A new school constitution laid the framework for the changes to come. Under the leadership of John Czerowski and Jack Pautsch the Council initiated measures for the betterment of Brother Rice and provided valuable training in self-government for its members. The Student Council sponsored and managed pep rallies, dances, and other activities in an effort to promote greater involvement in the school. The Prom and class gift were two of the larger undertakings. The orange derbies worn at the football games and the knight who made fame as the Brother Rice Crusader were two of the minor innovations used to develop keener school spirit. The 1964-65 Student Council has set a new course for the future leaders of Brother Rice High School.

Homecoming Dance, 1965

homecoming

The homecoming dance, climaxing a successful football season, was the outstanding social success of the Fall semester. Arrangements for this year's dance were under the direction of Brother Russo.

A twelve piece orchestra provided the fine dance music. The Queen and her court added the "glitter" to make the evening one the class of '65 will long remember. The football team made the weekend a total success by defeating Lee-Smyth in afternoon at Gates Park.

In February of this year, Brother Rice was one of the competing teams on the Chicago television show "It's Academic." Representing Brother Rice was Louis Wojdyla, captain; Dan Derby and Paul Lavin. Mr. Baader was present as one of the judges on the panel and as moderator of the team.

The participants were chosen from the senior class according to academic achievement. Team members were picked also for speed in answering a wide scope of questions, which is important in this type of quiz program.

Make-up is an important part of any major production

One of the most memorable events of the year took place when the Brother Rice Players under the direction of Brother Shannon presented Meredith Wilson's "The Music Man".

Outstanding performances were given by Bill Anderson as Professor Harold Hill, Jan Knox as Marion the Librarian, along with the entire cast. The girls in the play represented the following high schools: Mother McAuley, Queen of Peace, Academy of Our Lady, Maria and Mother of Sorrows

The choruses were under the direction of Brother Joyce and Brother O'Brien, choreography was directed by Brother May; Brother Walsh was in charge of the program, and the props were taken care of by Brother Russo

A special note of thanks must go to those members of the band, under the direction of Mr. Henning and Brother Joyce, whose task it was to play the difficult arrangements.

Four months of tiring work passed off with a senior play that has become a tradition at Brother Rice.

Participants, who volunteer, are judged on the basis of originality and of course talent. This year's show was judged by the officers of the student council. The yearly event is ably moderated by Brother Moffet. We hope the fine talent exemplified in previous years will continue in future years.

Father Aloysius looks on as retreatants enjoy their dinner.

For the second time in Brother Rice's history, the Senior Class made a closed retreat. This year, unlike last year, the retreat was attended by one class at a time. Again the retreat was held at Saint Mary's Retreat House in suburban Lemont. Father Aloysius and Father Mark, both Franciscan retreat masters, did an excellent job of helping the seniors, many of whom were making their first closed retreat, through their understanding counseling of the boy's problems.

If there is any force at Brother Rice responsible for the publication of this book it is the spirit of the faculty and student body. Their enthusiastic devotion to the religious, academic, and athletic facets of the school has lent inspiration to the year book staff. The "Crusader" is only one more tribute to their effort and achievement.

A special debt of gratitude is owed to Brother Kelleher and Mr. Robert Hanson of Wallinger Studios for the fine photographic work they contribute each year, and to Mr. Norman King, publisher, who pieces our work together for the final product. And finally we extend our deepest thanks to Brother Chapman and Brother Moffett for their guidance which compensated for our inexperience and for their patience which withstood our failings.
